## **Pilates for Men**

## Equipment: band

| Exercise        | Instruction   | Notes |
|-----------------|---|-------|
| Chest expansion | In kneeling lunge,hold band loosely in front of chest.<br>Inhale to lift band up, exhale to lower. Gradually<br>increase ROM, taking band overhead and down the<br>back if mobility allows. |       |
| Twist           | In kneeling lunge, hold band overhead and rotate  |       |
| Side bend       | In kneeling lunge, hold band overhead and laterally flx   |       |
| PNF stretch     | In kneeling lunge, press back shin into the ground<br>for 5 secs then release and open out hip more.<br>Repeat x3   |       |

| Exercise   | Instruction  | Notes |
|--|--|-------|
| Repeat all the sequence with opposite leg forwards |  |       |
| Kneeling roll down                                 | From kneeling up position, roll down through the spine, trying to pelvis over knees.   |       |
| Push up  | From kneeling up, roll down and perform 5 push<br>ups before returning. Repeat x3  |       |
| Leg pull front                                     | In L eg Pull position. Focus on head to spine<br>alignment. Hover one foot off   |       |
| Single leg straight stretch prep                   | Lying supine with one leg extended along floor,<br>band around other foot. Focus on back of leg<br>pressing the band down, return drawing leg back<br>for stretch. Keep leg as straight as possible. |       |

| Exercise              | Instruction  | Notes |
|-----------------------|--|-------|
| Shoulder bridge hinge | Heels under knees. Keep spine long as extend through hips to hinge up into long line.  |       |
| 100                   | Band around both feet, curl up into position. Extend<br>legs to a position where the focus is still in the<br>centre. Breathe.   |       |
| Side bend diagonal    | In side bend position with knees slightly bent. Lift into strong diagonal line.  |       |
| Roll up PNF stretch   | Seated with knees bent, toes lifted heels down.<br>Hands hold behind knees. Flex into c curve<br>ensuring equality of shape. Hold and try to extend<br>the spine without losing the shape. Hold 5 secs,<br>release and see if spinal flex ion can deepen.<br>Repeat x3 |       |

| Exercise                | Instruction  | Notes |
|-------------------------|--|-------|
| Roll up                 | Perform roll up with control   |       |
| Swimming                | Lying prone, legs together arms at 90 degree<br>angles. Firstly extend through the hip to hover the<br>thigh bone off the mat. Then keeping elbow bent,<br>focus on lifting shoulder blade and arm straight up<br>towards ceiling. Combine |       |
| Rolling back            | Perform rolling back as a release  |       |
| Leg pull                | Seated with knees bent, hands behind. Hinge up<br>into position and lower without the spine changing<br>shape  |       |
| Spine stretch with band | Seated with band around feet, held tightly.exhale to<br>flex forwards. Inhale to return focusing on the back<br>extensor to lift spine up, resisting the band.   |       |
